50X1-HUM

- At EKM Turbinenfabrik, Dresden, the plan for the first quarter of 1953 was fulfilled by 110 per cent. However, at the beginning of May, there was concern at the delay in construction and the bottlenecks in certain items and materials (in particular, steam auxiliary oil pumps, copper dynamos, voltage regulators, forged parts, turbine steel and screws).
- The factory had received a further commitment for 1953 to build 151 power turbines of a total value of 1,100,100 DM.
- The production program for 1954 schedules EKM to manufacture 144 steam turbines of a total value of 34,500,000 DM. However, as EKM, Dresden has not sufficient capacity to build these turbines itself, the program will have to be achieved in cooperation with other firms. EKM, Dresden is planning to distribute the work as follows:

EKM, Dresden (own production)	1	about 12,000,000 DM
Peniger Maschinenfabrik and Stock, Königsee	"	8,400,000 "
EKM Elbwerk, Rossau	"	6,000,000 "
Former C.H. Jaeger, Leipzig	"	6,000,000 "
Works in Freital and district	"	2,100,000 "

Total 34,500,000 DM

- Comment: R. Stock and Company, Instrument Factory.
